

EESE Board Committees
January 2010
Draft 1-8-10

The charge to each committee is to advance the board's work on one of the five Program Priorities in the 2010-2011 work plan. As stated in the work plan, the board will "focus its energy on advancing these programs through guiding investment of public funds, encouraging private capital, increasing access to technical expertise, recommending policy changes, and collaborating on program design and development."

The committees are advisory to the full board. The committees will begin with the program descriptions in the plan, which were developed by work groups in August 2009. At their discretion, committee chairs may invite non-board members to serve.

ENHANCED DELIVERY FOR
EE AND SE PROGRAMS

Chair: Dick Henry
Meredith Hatfield
Jack Ruderman
Alan Linder
Sen Martha Fuller Clark
Gil Gelineau
John Puc
