Good Morning,

I'm writing you regarding this letter of increase with "Aquarion Water Company". We are very distract with this potential increase of water. Is it because the Stock Holders are not getting their revenue, that we are being penalized. Personally, I know ourselves and many others who are doing many things to cut back and conserve. Purchasing water efficient toilets, not flushing toilets, watering lawns outside plants manually, washing clothes with coldwater, washing clothes less, taking fast showers, driving less, commuting with co-worker to work, buying energy efficient light bulbs, etc Unfortunately I can not attend this meeting, since my bread and butter for work is vital. Someone at the top must listen to this since, we the people are getting maxed out by continually getting hammered with all these increases, and then were told to converge and save. We do it and get slammed again!!!! All these increases are putting us at the brink of overload. I hope someone at the top is listening to us, since too many people are spiraling and sinking in this debt of despair. PLEASE DO NOT PERMIT THIS INCREASE!!!! MUCH APPRECIATED FOR YOUR TIME READING THE HARDSHIPS THAT WE ARE FACING... Teri Cloutier of Hampton NH showers,

Buying SF light bulbs, shutting lights off, pulling plugs out to cut back on usage,
