Public Utilities Commission

Re: Petition for rate increases
Aquarion Water Co. of N. H.

Hopetully I am not too late for
your final conference on the
above matter.

Aquarion has a history of
rate increases. Please check
previous requests.

The size of the increases
were excessive (21.08%) and
an additional (4.44%) for an
addition ~~already~~ already under
construction. How did they think
they were going to pay for
it when they began?

Are they clueless about
the recession we are in?

What percentage of their
incomes go to administrative
costs?

Please consider these
points in making your
decision.

over →

think of the people of
N.H. and protect their
interests.

Sincerely,

Mary Thompson
