PUC Chapter 2600 Greenhouse Gas Emissions
Reduction Fund Rules

1. PUC 2603.01. Energy Efficiency for Low Income Residential Customers.

We recommend that the language of PUC 2603.01 be consistent with the language of the statute, RSA 125-0:23, III. Specifically, we recommend that the words “no less than” be deleted from PUC 2603.01 (a), and that the words “at least” be inserted in their place, as follows:

- a) Pursuant to RSA 125-0:23, III, the commission shall allocate at least 10 percent of the greenhouse gas emissions reduction fund, on an annual basis, to assist low income residential customers.

As noted above, we also recommend that the words “residential customers” be used in lieu of the word “residents” in accordance with the language of the statute.

Thank you for the opportunity to submit these comments.
