Re: DE 08-150
Essex Meadows Properties, Inc.
Certification Application pursuant to RSA 362-F

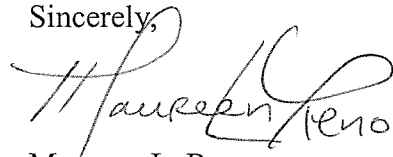

Dear Ms. Rannestad:

On November 25, 2008, the New Hampshire Public Utilities Commission (Commission) received an application from the Essex Meadows Properties, Inc. requesting certification for the Essex Meadows solar photovoltaic facility as a Class II facility pursuant to RSA 362-F, New Hampshire's Renewable Portfolio Standard law. Staff has reviewed your application and has noted the following items which must be addressed before your application is considered complete:

1. Pursuant to Puc 2505.02 (b) (4), the GIS facility code must be supplied, if available. On this application, you stated that the facility code has not yet been obtained but would be sent to NH PUC when received. What steps have been taken toward obtaining the GIS facility code, and when do you expect to receive the facility code?
2. How will the facility's electrical output be measured and verified by ISO-New England? If the output is not to be measured and verified by ISO-New England, please state by whom and how the output will be measured and verified.
3. Pursuant to Puc 2505.02 (b) (14), you must provide an affidavit by the owner attesting to the accuracy of the contents of the application. Please provide a signed affidavit.

These items must be received by the Commission to complete your application. Please refer to docket number DE 08-150 in all future correspondence with the Commission. Should you have any questions, please do not hesitate to contact me. My phone number is 603-271-2431 and my e-mail is maureen.reno@puc.nh.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Maureen L. Reno". The signature is fluid and cursive, with the first name "Maureen" being more prominent and the last name "Reno" following in a similar style.
