DE 09-006 Annual Monitoring Report for 2010

Dear Ms. Howland,

Please find enclosed an original and 8 copies of two reports. First is New Hampshire Electric Cooperative, Inc.'s (NHEC's) report of requested Customer Sited Renewable Sources aggregation for the fourth quarter of 2010 in accordance with the Commission's Aggregation approval of April 9, 2010. It is NHEC's intention to report this generation in the NEPOOL Generation Information System for fourth quarter 2010.

As shown in the report, the total capacity of the Class II aggregated sources is approximately 242 kW. NHEC requests that the Commission please update the NEPOOL GIS Administrator regarding this approved capacity.

The second report is NHEC's annual monitoring report for the calendar year 2010 in accordance with the Commission's approval of NHEC as an independent monitor.
