**Re: DG 09-049 – EnergyNorth Natural Gas, Inc. d/b/a National Grid NH Energy Efficiency Plan**

Dear Ms. Howland:

In accordance with Section II(I)(3) of the Settlement Agreement in DG 09-049 (approved by Commission Order 24,995), National Grid NH is required to file updated program descriptions, cost benefit analyses, program budgets and program goals for Program Year Two. National Grid has reviewed its Program Year Two documentation that was submitted with the settlement agreement that was approved by Order 24,995 and determined that it has no changes to the programs for services to be provided between January 1, 2010 and December 31, 2010. National Grid has updated the avoided cost data associated with those programs, which is reflected in revised Exhibits B and D to the settlement agreement. To this end, I enclose seven copies of revised Exhibits B and D regarding Program Year 2. In all other respects, the Company's program descriptions, program budgets and program goals for Program Year Two remain unchanged.

Thank you for your attention to this matter. Should you have any questions, please do not hesitate to be in touch.

Very truly yours,

  
Sarah B. Knowlton
