Ms. Debra A. Howland
Executive Director and Secretary
New Hampshire Public Utilities Commission
21 South Fruit Street, Suite 10
Concord, New Hampshire 03301-2420

Re: Docket 09-255; Application for Independent Monitor Status; Independent Monitor's
Annual Production Reports for Customer-Sited New Hampshire RPS Certificate
Facilities

Dear Ms. Howland,

Enclosed, but under separate individual cover, please find the annual production reports for three customer-sited facilities that were qualified by the New Hampshire Public Utilities Commission to produce either Class I or Class II renewable energy certificates.¹

As of year-end 2015, the revenue grade metering systems were deemed to be present and in good-working order.

The two facilities covered in these reports are:

- Spaulding Pond Hydro (Docket #DE12-210)
- Weston Dam Solar (Docket #DE14-055)
- Monadnock Paper Company (Docket #DE13-318)

Looking forward, I believe that the Commission should consider a way to automate this reporting for behind-the-meter generation qualified for the New Hampshire RPS by using the NEPOOL GIS. Over time, the number of behind-the-meter generators will grow exponentially. By automating this manual reporting, it may be possible to get better, more current reporting from such generators while at the same time getting a custom report tailored to the specific needs

¹ In order not to disclose specific production numbers of one client's generator to all other clients, specific generation production numbers are only being sent to the Commission.

of the Commission. If Staff or you want to discuss this further, please do not hesitate to contact me.

If you have any questions or concerns on these reports, please do not hesitate to contact me.

Sincerely yours,

/S/
William P. Short III
