

New Hampshire Public Utilities Commission Staff Advocates

Docket No. 10-025

Respondent: John Lisciandro
Director, Deloitte FAS

Request: Otel Telekom, Inc.

Dated: March 31, 2010

Item: Otel: Staff ADV-13 Does the business plan project any increases to access rates? If so, please specify:
(a) The rates projected to be increased;
(b) The amount of increase on a dollar and percentage basis;
(c) When the increase(s) are projected to occur.

Reply: Any projected access rates are confidential to FairPoint. As mentioned, in certain cases, rates were not provided and access revenue each year was forecasted by FairPoint (the "Debtor") by simply applying a % growth over previous period access revenue rather than a more detailed approach that could include specific factors such as rates, number of channels and number of customers.
