Subject: FW: vio count for C systems

ORIGINAL	
N.H.P.U.C. Case No.	DW 10-141
Exhibit No.	LRW 27
Witness	Mark Naylor
DO NOT REMOVE FROM FILE	

Justin, Here are the violation numbers for just community water systems, we do not have it broken down by system size. Tom asked if I or Steve Roy could be present tomorrow. I have a number of meetings. I'm checking on Steve. We could probably arrange a specific time to be there if all parties want input. Thanks.

Sarah - there were approx 764 violations for which NOV's were sent for violations occurring in 2011 at community water systems, not including water use, water restriction, or educational mailing:

- MCL (chem, turbidity, and bacteria) : ~188
- M/R (chem, DBP, bacteria, PbCu, GWR TM and IM, SWTR turbidity) : ~261
- PbCu corrosion control rule stuff : ~11
- CCR related : ~163
- PN related : ~67
- Sanitary Survey/Significant Deficiency related : ~35
- Certified Operator : ~5
- PTO : ~33
- Source Capacity : ~1

Leah, is this violations for all system types or just C systems? Is it easy to pull it for just C systems.
