Re: DE 10-266 and DE 10-267, Tioga Solar Westborough, LLC
Certification Applications for Class II Eligibility Pursuant to RSA 362-F
on behalf of BJ's Wholesale Club, Inc.

Dear Mr. Newman:

On October 07, 2011, Tioga Solar Westborough, LLC (TSW) submitted applications on behalf of BJ's Wholesale Club, Inc. requesting certification of two customer-sited rooftop photovoltaic facilities (BJ's facilities) as eligible to produce Class II Renewable Energy Certificates (RECs) pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Staff has reviewed your applications and recommended approval noting that the applications were completed on December 23, 2010.

Class II eligibility requires that a facility began operation after January 1, 2006 and that it produces electricity from solar technologies. The applications indicate that the facilities are customer-sited photovoltaic rooftop arrays located in Massachusetts and the facilities began operation on July 8, 2010. The details for each facility are listed in the following table.

Facility Title	Commission Assigned Docket #	Facility Location	Operation Date	Total kW listed in application (DC Panels)	NEPOOL GIS Facility Code	NH Certification Code
BJ's Wholesale Club 58	DE 10-266	Leominster, MA	July 08, 2010	262.74	NON 32984	NH-II-11-005
BJ's Wholesale Club 55	DE 10-267	Attleboro, MA	July 08, 2010	292.60	NON 32983	NH-II-11-006

February 4, 2011
Page two

Your applications indicate that the BJ's facilities are behind-the-meter sources and that National Semiconductor, as the facilities' independent monitor, will verify and report the facilities' output to the NEPOOL Generation Information System (GIS) pursuant to the GIS Operating Rules. Each facility's NEPOOL GIS facility code is listed in the table on the previous page.

Based on Staff's recommendation, the Commission has determined that TSW has provided all the necessary information to demonstrate that the BJ's facilities are eligible for certification as Class II facilities. Therefore, the Commission hereby certifies the BJ's facilities as Class II renewable energy sources effective December 23, 2010 and are eligible to be issued New Hampshire Class II RECs.

Attached please find a copy of the notice of these certifications provided to the GIS administrator. The New Hampshire Renewable Portfolio Standard certification codes for the BJ's photovoltaic facilities are listed in the table on the previous page.

Sincerely,

A handwritten signature in blue ink, appearing to read "Debra A. Howland".

Re: DE 10-266 and 10-267, Tioga Solar Westborough, LLC
Certification Applications for Class II Eligibility Pursuant to RSA 362-F
on behalf of BJ's Wholesale Club, Inc.
New Hampshire Certification Codes: NH-II-11-005 and NH-II-11-006

Dear Mr. Webb:

Please be advised that, pursuant to RSA 362-F, the New Hampshire Public Utilities Commission has certified two customer-sited rooftop photovoltaic facilities owned by BJ's Wholesale Club, Inc. as Class II renewable energy sources effective December 23, 2010. Accordingly, the BJ's facilities are eligible to be issued New Hampshire Class II Renewable Energy Certificates.

Each facility's size and location are listed in the following table.

Facility Title	Commission Assigned Docket #	Facility Location	Operation Date	Total kW listed in application (DC Panels)	NEPOOL GIS Facility Code	NH Certification Code
BJ's Wholesale Club 58	DE 10-266	Leominster, MA	July 08, 2010	262.74	NON 32984	NH-II-11-005
BJ's Wholesale Club 55	DE 10-267	Attleboro, MA	July 08, 2010	292.60	NON 32983	NH-II-11-006

National Semiconductor, the facility's independent monitor, will verify and report to the NEPOOL Generation Information System (GIS) the facility's output pursuant to the NEPOOL GIS Operating Rules. Each facility's NEPOOL GIS facility code and New Hampshire certification code are listed in the table above.

Sincerely,

Debra A. Howland
Executive Director
