**Form SRA – Addendum to Business Organization and Registration Forms
Statement of Compliance with New Hampshire Securities Laws**

Part I – Business Identification and Contact Information

Business Name: International Network Solutions, LLC

Business Address (include city, state, zip): 225 West Stone Ave., Greenville, SC 29609

Telephone Number: (504) 832-0984 E-mail: cpays@nbglaw.com

Contact Person: Caroline Pays

Contact Person Address (if different): 1420 Veterans Memorial Blvd., Metairie, LA 70005

Part II – Check ONE of the following items in Part II. If more than one item is checked, the form will be rejected.

[PLEASE NOTE: Most small businesses registering in New Hampshire qualify for the exemption in Part II, Item 1 below. However, you must insure that your business meets all of the requirements spelled out in A), B), and C)]:

1. ☐ Ownership interests in this business are exempt from the registration requirements of the state of New Hampshire because the business meets ALL of the following three requirements:
 - A) This business has 10 or fewer owners; and
 - B) Advertising relating to the sale of ownership interests has not been circulated; and
 - C) Sales of ownership interests – if any – will be completed within 60 days of the formation of this business.
2. ☐ This business will offer securities in New Hampshire under another exemption from registration or will notice file for federal covered securities. Enter the citation for the exemption or notice filing claimed - _____
3. ☐ This business has registered or will register its securities for sale in New Hampshire. Enter the date the registration statement was or will be filed with the Bureau of Securities Regulation - _____
4. ☒ This business was formed in a state other than New Hampshire and will not offer or sell securities in New Hampshire.

Part III – Check ONE of the following items in Part III:

1. ☒ This business is not being formed in New Hampshire.
2. ☐ This business is being formed in New Hampshire and the registration document states that any sale or offer for sale of ownership interests in the business will comply with the requirements of the New Hampshire Uniform Securities Act.

Part IV – Certification of Accuracy

(NOTE: The information in Part IV must be certified by: 1) all of the incorporators of a corporation to be formed; or 2) an executive officer of an existing corporation; or 3) all of the general partners or intended general partners of a limited partnership; or 4) one or more authorized members or managers of a limited liability company; or 5) one or more authorized partners of a registered limited liability partnership or foreign registered limited liability partnership.)

I (We) certify that the information provided in this form is true and complete. (Original signatures only)

1. DESCRIPTION OF LOCAL EXCHANGE SERVICES**1.0 LOCAL EXCHANGE SERVICES**

International Network Solutions, LLC (“INS”) hereinafter referred to as the “Company”. INS. Local Exchange Services are furnished for the use of end-users in placing and receiving local telephone calls within the Local Service Area. Services, features and functions will be provided where facilities and billing capability are available.

The provision of Local Exchange Services is subject to existing regulations, terms and conditions specified in this Rate schedule, and may be revised, added to or supplemented. When Local Exchange Services are provided in conjunction with intrastate and interstate services, the intrastate and interstate services are subject to existing regulations, terms and conditions specified in the company’s current toll rate schedules as revised, added to or supplemented.

1.1 Individual Case Basis (ICB) Arrangements

At the option of the Company, service may be offered on a contract basis to meet specialized requirements of the Customer. The terms of each contract shall be mutually agreed upon between the Customer and Company and may include discounts off of rates contained herein, waiver of recurring or nonrecurring charges, charges for specially designed and constructed services not contained in the Company’s general service offerings, or other customized features. The terms of the contract may be based partially or completely on the term and volume commitment, type of originating or terminating access, mixture of services or other distinguishing features. Service shall be available to all similarly situated Customers for a fixed period of time following the initial offering for the first contract Customer as specified in each individual contract. The Company will maintain records of its ICB contracts for Commission review as conditions or circumstances may require.

Greenville, SC 29609

1.0 DESCRIPTION OF LOCAL EXCHANGE SERVICES**1.1 Universal Emergency Telephone Number Service****1.1.1 General**

Universal Emergency Telephone Number Service (911 Service) is an arrangement of the Company central office and trunking facilities whereby any telephone user who dials the number 911 will reach the emergency report center for the telephone from which the number is dialed or will be routed to an operator if all lines to an emergency report center are busy. If no emergency report center customer exists for a central office entity, a telephone user who dials the number 911 will be routed to an operator. The telephone user who dials the 911 number will not be charged for the call.

1.1.2 Regulations

- A. This service is furnished to municipalities and other governmental agencies only for the purpose of voice reporting of emergencies by the public. For this service, the municipality or government agency(s) designated by the customer as responsible for the control and staffing of the emergency report center is referred to as the "Agency".
- B. When 911 service replaces an existing emergency number, intercept service shall be the responsibility of the Agency. However, if the Agency is unable to provide this service, the operator will intercept and forward requests for emergency aid for a period of at least one year.
- C. 911 service is furnished for incoming calls only.
- D. For 911 service interruptions the Company has established Primary and Final routing for calls to the Public Safety Answering Point (PSAP). The Company, through its intercarrier interconnection agreements, has established direct interconnection trunking facilities with the primary incumbent local exchange carrier serving the applicable territory. These trunking facilities carrying 911 traffic are directly connected with incumbent local exchange carrier's tandem switching facilities. The traffic is then routed by either tandem to the PSAP. If the Primary route is busy or

1.0 DESCRIPTION OF LOCAL EXCHANGE SERVICES (cont'd)**1.1 Universal Emergency Telephone Number Service (cont'd)**

out of service, the calls will route to an announcement. The announcement will state that "All Company circuits are busy now. Please hang up and try your call again."

- E. The Company will abide by all terms and conditions regarding MSAG and the provision of 911 services required pursuant to the Commission's proceeding in any docket or dockets relating to this matter and with the entity's (county or municipality that is responsible under the laws of the jurisdiction) protocols for 911 service provision.

1.2 Enhanced Universal Emergency Telephone Number Service**1.2.1 General**

Enhanced Universal Emergency Telephone Number Service (E9 11 Service) is a Call Delivery Network whereby any telephone user who dials the number 911 will reach a designated Public Safety Answering Point (PSAP). E91 1 Service is offered in the Company's serving area subject to the availability of stored program control central office facilities, Enhanced 911 software, and ANI equipment. The telephone user who dials the 911 number will not be charged for the call.

1.2.2 Regulations

- A. In addition to the following, the regulations in 2.1.2 apply.
- B. This rate schedule does not provide for the inspection or constant monitoring of facilities to discover errors, defects, or malfunctions in the service, nor does the company undertake such responsibility. The Agency shall make such operational tests as in their judgment are required to determine whether the system is functioning properly for its use. The Agency shall promptly notify the Company in the event the system is not functioning properly.
- C. E911 information, consisting of the names, addresses, and telephone numbers of all telephone customers, is confidential. The Company will release such information to the Agency periodically for the update of their systems.

International Network Solutions, LLC
225 W. Stone Avenue
Greenville, SC 29609

1.0 DESCRIPTION OF LOCAL EXCHANGE SERVICES (cont'd)**1.2.2 Regulations (cont'd)**

- D. The E911 calling party, by dialing 911, waives the privacy afforded by non-listed and non-published service to the extent that the telephone number ("ANI") and address ("ALI") associated with the originating station location are furnished to the PSAP, on a call by call basis, after an E911 call has Service boundaries of the Company and political subdivision boundaries may not coincide. In the event that the Agency does not subscribe to Selective Routing, it must make arrangements to handle all 911 calls that originate from telephones served by Central offices in the local service areas (i.e., exchange) whether or not the calling telephone is situated on property within the geographical boundaries of the Agency's public safety jurisdiction.

1.1 Direct Trunk Overflow (DTO)

The Direct Trunk Overflow feature gives the Customer another termination option if all of the DID trunks are busy. This all-trunks-busy condition may be caused either by legitimate heavy incoming traffic or by a trouble condition where the T-1 system is down and the 5ESS senses that trouble as an all-trunks-busy condition. During either busy condition, the incoming call attempts to terminate to the DID group. When the 5ESS sees all trunks busy, it will choose an alternate route for the call to a telephone number that is programmed in the 5ESS only. This telephone number has the Call Forward Remote feature assigned to it and forwards the call to a number chosen by the Customer. Remote Access DTO enables the customer to activate and/or update the Call Forwarding on their DTO from any location. The customer uses a provided remote-access toll free number, the DTO Call Forwarding line and their four-digit PIN to review or change their call forwarding number.
