May***	2013	4,988	6,694	74.5%
June****	2013	7,056	8,666	81.4%
July	2013	8,343	9,447	88.3%
August	2013	7,724	8,546	90.4%
September	2013	7,188	7,811	92.0%
12 Month Total		76,015	87,030	87.3%

Note: "Total Calls Answered" include calls answered by a customer service representative (CSR) and calls completed within the Voice Response Unit (VRU). The time to answer is measured once the customer makes a selection to either speak with a CSR or use the VRU.

Note: *revised Call Answering data for October 2012. When the October data was run last month, three (3) outage calls were omitted due to being handled by Upstate NY representatives on behalf of NH. The discrepancy was picked up when compiling the November data and the three outage calls were added in for October. The addition of the three outage calls did not impact the reported Service Level Performance of 88.24%.

Note: **revised Call Answering data for December 2012. Total calls was an estimated December VRU Completed call figure of 1,850. Actual data has since been provided. There is a variance of +2 calls, revised VRU result is 1,852. The addition of the two calls did not impact the originally reported Service Level Performance of 88.64%.

Note: ***revised Call Answering data for May 2013. Issues w/VRU have been corrected and we are now reporting an additional 23 VRU transactions for the month of May (new total of 1,720 vs. 1,697). The result is a very nominal increase in the year-to-date Service Level, which now stands at 84.01% vs. the figure of 84.00%.

Note: ****revised Call Answering data for June 2013. Total calls was an estimated June VRU Completed call figure of 2,247. Actual data has since been provided. There is a variance of +512 calls, revised VRU result is 2,759. The addition of the 512 calls impacted the reported Service Level Performance. It went from 83.2% up to 83.4%.
