12 Month Total		94,940	118,879	79.9%

Note: "Total Calls Answered" include calls answered by a customer service representative (CSR) and calls completed within the Voice Response Unit (VRU). The time to answer is measured once the customer makes a selection to either speak with a CSR or use the VRU.

Note: November's call answering service level of 81.4% is the result of the Improvement Plan implemented in October that addressed staffing issues, supervisor/CSR ratios and training needs. November performance is improved by 53% over October. Call volumes were also lower than in October. Despite exceeding the 80% service level target for the month, the rolling average fell below target by .10%. Continued focus on exceeding service levels over the next couple of months will be necessary to meet the rolling 12-month service level. To support this effort, a new hire class started on December 1st and will become fully operational in January.
