| Information | Data Availability | N/A | N/A | N/A | In compliance |

*Note:

GSE % Bills with Exceptions: Bills with exceptions continue to trend downward, with very good performance over the last five months. The 12-month rolling average met the Review & Set-Aside target by 0.08%; however, it continues to be below the Report target by 0.06%. The reason for the failure to meet the target was due to 1) the increased number of exceptions in the month of January associated with three summary bills; and 2) the increased number of no read exceptions (demand meters) due to the weather.
