Re: Competitive Electric Power Supplier Registration - Application for Renewal

Dear Ms. Howland:

Please find enclosed an original and 2 copies of an application for renewal of registration as a competitive electric power supplier ("CEPS") for TransCanada Power Marketing Ltd. ("TransCanada"). An electronic copy will be filed with the Commission as soon as access is granted to the Commission's electronic report filing system.

TransCanada makes this filing as a precautionary measure even though it believes its CEPS registration is valid until August 2014. TransCanada last renewed its CEPS Registration in August 2009. The PUC approved TransCanada's renewal application by letter dated September 21, 2009. At the time of approval, the term of a CEPS registration under Rule 2000 was two years. In August 2010, Rule 2000 was amended to, among other things, increase the term of a CEPS current registration from two to five years. Consequently, TransCanada's current registration is now valid until August 2014. TransCanada left messages with Commission staff members to confirm its understanding, but has not yet received a reply. Recognizing there is a slight possibility that the Commission could reach a conclusion different than TransCanada, the company thought it prudent to render the issue moot by making this filing at this time requesting renewal of its registration.

A check in the amount of \$250.00 to cover the renewal application re-registration fee is included. Please let me know if you have any questions.

Sincerely,

Stuart Ormsbee
Manager, Power Marketing
