SUBJECT: DM 12-115 Application of Easy Energy for Registration as a Competitive Electric Power Supplier (CEPS); Staff's Recommendation to close the docket

TO: Debra A. Howland
Executive Director

On May 1, 2012, the New Hampshire Public Utilities Commission (Commission) received an application from Easy Energy of Massachusetts, LLC (Easy Energy) for registration as a Competitive Electric Power Supplier (CEPS). Easy Energy's application did not include any proof of financial surety or statements from each utility with which the applicant intends to do business as a CEPS indicating that the applicant has complied with the training and testing requirements for electronic data interchange (EDI), which are required pursuant to Puc 2003.01. On June 29, 2012, Staff sent a letter requesting that Easy Energy address the deficiencies within 30 days. Easy Energy did not meet the deadline, and Staff has had subsequent communications with the applicant to inquire about the status of its application. Based on the most recent discussion, the applicant has indicated that it is no longer interested in proceeding with the application. Therefore, Staff recommends that the Commission close the docket.
