Ms. Debra Howland
Executive Director and Secretary
State of New Hampshire
Public Utilities Commission
21 S. Fruit Street Suite 10
Concord, NH 03301-2429

Ms. Howland,

In my correspondences with Barbara Bernstein (Sustainable Energy Division) she has brought it to my attention that I need to request to "Please withdrawal Docket number 12-258 as I do not need prior approval to be an aggregator of renewable energy credits." Please do so and also please process the enclosed application as part of my aggregation account.

If my understanding is correct, once I send in the first request for aggregation, Barbara will be issuing (each unit) a separate ID number and an additional single number for NEPOOL as the aggregator. Please have Barbara contact me with our new account number(s)

I am looking forward to serving the people of New Hampshire and becoming a valued element in the sustainable energy efforts of the State.

If you have additional questions, please feel free to contact me at solarfarmbank@verizon.net 508-259-2419

Thank you,

Stephen Hirsh
President
