Re: DE 13-047, Abraham Fanning's Request for Class II Eligibility for His Residential Photovoltaic Array, 161 Carriage Road, New Boston, NH, Pursuant to RSA 362-F

Dear Mr. Fanning:

On February 06, 2013, you submitted an application for the certification of the electrical production from the .012 megawatt (MW) photovoltaic (PV) array located at the Abraham Fanning (Fanning) residence for Class II renewable energy certificates (RECs), pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard (RPS) law. Staff has determined the application was complete in the initial filing in accordance with New Hampshire Code of Administrative Rules Puc 2500. The application and all submitted information have been reviewed and staff recommends approval effective February 06, 2013.

Class II eligibility requires a facility to produce electricity from solar technologies and to have initiated operation after January 01, 2006. The application indicates that the Fanning residential PV array began operation on January 01, 2013; the total nameplate capacity of the PV array is .012 MW; the facility's New England Power Pool (NEPOOL) Generation Information System facility code is NON 36099.

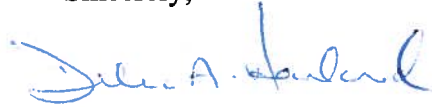

Pursuant to Puc 2502.13, the Fanning PV array is a customer-sited photovoltaic facility; therefore, its output is not recorded in the NEPOOL Market Settlement System and, as a result, must be monitored and verified by an independent monitor. The application states that Thomas Kelly will serve as the facility's independent monitor as required by the New Hampshire Code of Administrative Rules Puc 2505.08(b)(5).

Staff has determined that all necessary information has been provided to demonstrate the Fanning PV array's eligibility for certification to produce New Hampshire Class II RECs. Based on Staff's recommendation, the Commission hereby certifies the Fanning PV array as a Class II renewable energy source effective February

06, 2013. The New Hampshire single certification code for the Fanning PV array is NH-II-13-022.

Attached please find a copy of the notice of this certification provided to the GIS administrator.

Sincerely,

A handwritten signature in blue ink, appearing to read "Debra A. Howland", is positioned above the printed name.

Re: DE 13-047, Abraham Fanning's Request for Class II Eligibility for His Residential Photovoltaic Array, 161 Carriage Road, New Boston, NH, Pursuant to RSA 362-F
New Hampshire Certification Code NH-II-13-022

Dear Mr. Webb:

Please be advised that, pursuant to RSA 362-F, the New Hampshire Public Utilities Commission has certified the photovoltaic (PV) array at Abraham Fanning's (Fanning) residence, 161 Carriage Road, New Boston, NH as a Class II renewable energy source effective February 06, 2013. Accordingly, the Fanning PV facility is eligible to be issued New Hampshire Class II renewable energy certificates.

The Fanning PV array has a total nameplate capacity of .012 megawatts. Thomas Kelly will serve as the facility's independent monitor as required by the New Hampshire Code of Administrative Rules Puc 2505.08(b)(5). The applicant's NEPOOL GIS facility code is NON 36099. The facility's New Hampshire certification code is NH-II-13-022.

Sincerely,

A handwritten signature in blue ink, appearing to read "Debra A. Howland".
