Re: DE 13-317, Application for Certification as a REC Eligible Facility - Matthew Schomburg

Dear Mr. Behrmann:

On November 7, 2013, the Commission received an application from Matthew Schomburg (Schomburg) requesting Commission approval for Class II New Hampshire REC eligibility for the Schomburg 0.00258 megawatt (MW) photovoltaic (PV) array.<sup>1</sup> On December 5, 2013, the Commission received a letter from Revolution Energy Aggregation, LLC (Revolution Energy Aggregation) requesting that the Schomburg facility be included in the Revolution Energy Aggregation pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law.<sup>2</sup>

The Commission, in a non-adjudicative process, is required to issue a determination of whether a facility meets a particular classification within 45 days of receipt of a completed application. The above-named facility is a customer-sited source and meets the Class II eligibility requirements under RSA 362-F:4, II. Based on review of the application Staff recommends that the Commission approve the Schomburg PV array as part of Revolution Energy Aggregation's Class II eligible facilities aggregation effective December 5, 2013.

Since this facility is a customer-sited source, its output is not recorded in the ISO New England Market Settlement System and, as a result must be monitored and verified by an independent monitor. The application states that Paul Button, Energy Audits

<sup>1</sup> Class II eligibility requires a facility to produce electricity from solar technologies that began operation after January 1, 2006 (RSA 362-F:4, II).

<sup>2</sup> The Commission approved Revolution Energy Aggregation, LLC as an aggregator of RECs on August 07, 2013, DE 13-230.

Unlimited, will monitor the facility's output pursuant to N.H. Code of Administrative Rules Puc 2505.08 and 2505.09. Mr. Button will report this facility's total output annually to the customer, the Commission and the NEPOOL Generation Information System as part of Revolution Energy Aggregation's Class II aggregation pursuant to Puc 2505.09(h)(3). The GIS facility code assigned to Revolution Energy Aggregation is NON 15299.

The details for this facility are listed in the following table.

Commission Assigned Docket #	Facility Owner	Facility Location	Total MW listed in application	Effective Date to Produce RECs	NH Certification Code
DE 13-317	Schomburg	Milan	0.00258	12-5-13	NH-II-13-126

The Commission has determined that Matthew Schomburg and Revolution Energy Aggregation have provided all the information necessary to demonstrate this facility's eligibility for certification and hereby certifies the Schomburg PV array as eligible to be aggregated by the Revolution Energy Aggregation for Class II RECs effective December 5, 2013.

Sincerely,

Debra A. Howland  
Executive Director

cc: Matthew Schomburg

Re: DE 13-317 Application for Certification as a REC Eligible Facility - Matthew Schomburg

Dear Mr. Webb:

Please be advised that, pursuant to RSA 362-F, the New Hampshire Public Utilities Commission has certified the Matthew Schomburg (Schomburg) photovoltaic facility as part of the Revolution Energy Aggregation.

Accordingly, Revolution Energy Aggregation is eligible to be issued Class II RECs, effective December 5, 2013 for the Schomburg PV array. The following table summarizes the new addition to Revolution Energy Aggregation including the New Hampshire Certification Code.

Docket #	Facility Name	Facility Location	Total MW	Effective Date to Produce Class II RECs	NH Certification Code
DE 13-317	Schomburg	Milan	0.00258	12-5-13	NH-II-13-126

Sincerely,

Debra A. Howland  
Executive Director
