Attn: Ms. Debra Howland, Executive Director

Re: Waiver to Continue to Produce Class I Thermal REC's

Dear Ms. Howland:

On October 6, 2014, the Commission granted (DE 14-182) interim certification for the Littleton Regional Healthcare to receive REC's. On February 24, 2015, the Commission received an application for full certification for Littleton Regional Healthcare. On April 7, 2015, staff sent to Yeaton Associates a letter requesting information and clarification in order to complete the application review.

In accordance with the April 7 letter, LRH would like to request a waiver from the Commission to continue to produce thermal REC's until we can meet all of the provisions of Puc 2506.04, or until we receive approval to utilize 2506.06 by satisfactorily explaining any exceptions to Puc 2506.04.

Respectfully,

A handwritten signature in black ink, appearing to read 'Wayne G. Fillion', is written over a light blue horizontal line.
