Your Right to Dispute Your Water Bill:

If you believe your bill is inaccurate or for any other reason you wish to dispute it, please call us by telephone (603) 926-3319 or (800) 403-4333 toll-free, or by mail or in person at the address noted above to explain what you believe to be in error. We will promptly investigate your complaint and notify you of the resolution.

If you are not satisfied with the decision of Aquarion relative to your bill and you still consider the bill to be inaccurate in any respect, or if you have any other complaint regarding the matter, you have the right to appeal to the New Hampshire Public Utilities Commission.

State of New Hampshire Public Utilities Commission, 21 S. Fruit Street, Suite 10
Concord, NH 03301-2429 (603) 271-2431, (800) 852-3793 (NH only)

****WICA Charge Explanation:** As approved by the New Hampshire Public Utilities Commission, your current bill includes a Water Infrastructure and Conservation Adjustment (WICA) charge. This adjustment covers costs of completed infrastructure improvements that have both enhanced the reliability of service and its delivery to our customers. Further information may be obtained from our website www.aquarion.com or by contacting customer service at (800) 403-4333 or locally at (603) 926-3319.

Tangible Property Regulation Credit (TPRC): This credit is the result of changes in IRS regulations that generated an income tax benefit for Aquarion. Aquarion is passing this benefit on to its customers through this TPRC adjustment.

Service Charge: The service charge on the bill is derived from a monthly service charge for the property's meter size (property meter size is located in the upper left side of the bill) converted into a daily rate ("per diem"). To calculate the service charge for the billing period, multiply the monthly service charge from the Schedule of Approved Rates (found on our website under Customer Care) by 12 to derive the annual service charge rate. Divide the annual service charge rate by 365 to find the per diem rate for your property's meter size. Multiply the per diem rate by the number of actual days in the current billing period to calculate the service charge for the period.
