

STATE OF NEW HAMPSHIRE BEFORE THE PUBLIC UTILITIES COMMISSION

Docket No. DE 16-XXX

Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty Utilities Calendar Year 2015 Reliability Enhancement Plan and Vegetation Management Plan Report and Reconciliation Filing

DIRECT TESTIMONY

OF

CHRISTIAN BROUILLARD AND JEFFREY CARNEY

March 15, 2016

Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty Utilities Docket No. DE 16-___ Testimony of C. Brouillard & J. Carney Page 1 of 10

1 I. INTRODUCTION AND QUALIFICATIONS

- 2 Christian Brouillard
- 3 Q. Mr. Brouillard, please state your full name and business address.
- 4 A. My name is Christian P. Brouillard and my business address is 15 Buttrick Road,

5 Londonderry, NH 03053.

6 Q. By whom are you employed and in what position?

A. I am employed as the Director of Engineering by Liberty Utilities Service Corp. In my
capacity as Director of Engineering, I am responsible for delivery system planning and
capital investments, engineering and design, and maps and records integrity for Liberty
Utilities (Energy North Natural Gas) Corp. and Liberty Utilities (Granite State Electric)
Corp. ("Granite State" or "the Company").

12 Q. Please describe your educational background and certifications.

13 A. I graduated from the University of New Hampshire in 1982, earning a bachelor's degree

14 in electrical engineering. I also completed the Public Utility Executive Course,

15 sponsored by the University of Idaho. I am a registered professional engineer in the

16 states of New Hampshire and Massachusetts and a certified Project Management

17 Professional.

21

18 Q. Please describe your professional experience.

In 1982, I began my engineering career as an associate engineer with Massachusetts
 Electric Company, a subsidiary of National Grid USA ("National Grid") and a former

affiliate of Granite State, in North Andover, Massachusetts. From 1982 to 1992, I held

Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty Utilities Docket No. DE 16-____ Testimony of C. Brouillard & J. Carney Page 2 of 10

1		positions of progressive responsibility in the distribution engineering, planning,
2		protection, and executive support functions. In 1993, I was promoted to Manager of
3		District Engineering and held various engineering and management positions since that
4		time, including Manager of Asset Strategy. In 2005, I became Manager of Work
5		Planning and was responsible for developing Granite State's capital construction plans.
6		In 2008, I was promoted to Director, Investment Planning for the Company's electric
7		distribution system in both New England and New York for National Grid. In 2011, I
8		assumed my current role as Director of Engineering for Liberty Energy NH. In January
9		2015, I assumed transitional responsibility for Electric Operations, Gas Production,
10		Control and Dispatch Center, and Compliance Quality and Emergency Management. I
11		am currently responsible for Electric and Gas Engineering, Gas Production, Control and
12		Dispatch Center, and Compliance Quality and Emergency Management
13	Q.	Have you previously testified before the New Hampshire Public Utilities
14		Commission?
15	A.	Yes, I have previously testified before the Commission on the Company's Reliability
16		Enhancement Program and Integrated Resource Plan.
17		Jeffrey Carney
17		
18	Q.	Mr. Carney, would you please state your full name and business address?
19	A.	My name is Jeffrey Carney, and my business address is 407 Miracle Mile, Lebanon, New
20		Hampshire 03766.

Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty Utilities Docket No. DE 16-____ Testimony of C. Brouillard & J. Carney Page 3 of 10

1	Q.	By whom are you employed and in what position?
2	Α.	I am employed by Liberty Utilities Service Corp. as the Vegetation Supervisor. In my
3		capacity as Program Manager Vegetation and Inspections, I support Electric Operations
4		and plan, budget and manage Granite State's inspection and vegetation management
5		programs, vendor performance, and provide storm and regulatory support on the
6		distribution and sub transmission assets.
7	Q.	Please describe your educational background.
8	Α.	I graduated from Paul Smith's College of Arts and Sciences in Paul Smiths, New York in
9		1976. I received an associate's degree in Applied Science in Forestry and Land
10		Surveying.
11	Q.	Please describe your professional experience.
11 12	Q. A.	Please describe your professional experience. I joined Liberty on April 1, 2012, when I assumed the transitional responsibility as
12		I joined Liberty on April 1, 2012, when I assumed the transitional responsibility as
12 13		I joined Liberty on April 1, 2012, when I assumed the transitional responsibility as Vegetation Supervisor for the National Grid FY13 Vegetation Management Program.
12 13 14		I joined Liberty on April 1, 2012, when I assumed the transitional responsibility as Vegetation Supervisor for the National Grid FY13 Vegetation Management Program. Prior to that, I served as the System Arborist for National Grid Service Company from

- 1 Q. Have you previously testified before the Commission?
- A. Yes. I have previously testified before this Commission on vegetation management
 issues.
- 4

II. <u>PURPOSE OF TESTIMONY</u>

5 Q. What is the purpose of this testimony?

First, this testimony provides the Commission with background information regarding the 6 Α. 7 Reliability Enhancement Program ("REP") and the Vegetation Management Program ("VMP") that Granite State implemented during Calendar Year 2015 as described in the 8 Calendar Year 2015 Reliability Enhancement Plan and Vegetation Management Plan 9 Report, dated March 15, 2016 (the "CY 2015 REP/VMP Report"), submitted with this 10 filing. Second, this testimony provides support for the Company's request to recover 11 \$346,184 in expenses above the Base Plan operating and maintenance ("O&M") amount 12 of \$1,360,000 that was authorized by the Settlement Agreement in Docket No. DE 13-13 063 (the "Settlement Agreement") and approved by Order No. 25,638 at 12 (March 17, 14 2014). Third, the Company seeks to recover the revenue requirement associated with a 15 total of \$1,321,456 in capital investment, broken down between program years CY 2014 16 and CY 2015. The total carryover from CY 2014 was \$269,663, as discussed in the CY 17 2015 REP/VMP Report and in the pre-filed direct testimony of Heather Tebbetts. The 18 Company is requesting an incremental revenue requirement of \$279,097 to recoup the 19 2015 REP capital expenditures. Finally, this filing provides information regarding the 20 calculation of the REP/VMP Adjustment Provision and the REP Capital Investment 21 Allowance and the associated rate impacts, as set forth in the testimony of Heather 22

Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty Utilities Docket No. DE 16-___ Testimony of C. Brouillard & J. Carney Page 5 of 10

- Tebbetts, which is a part of this filing. The Company requests that the new O&M amount apply to usage on and after May 1, 2016.

2

III. OVERVIEW OF REP AND VMP

4 Q. Please explain the purpose of the REP and VMP.

5 A. As part of the Settlement Agreement, the Company agreed to continue with its 6 Vegetation Management and Reliability Enhancement Programs at agreed upon levels, subject to annual Commission approval. In general, the REP and VMP include both 7 capital (REP) and O&M (VMP) spending targeted to improve reliability. The REP and 8 9 VMP are premised on the understanding that a certain amount of annual spending on both capital and O&M activities is necessary to maintain the safety and reliability of the 10 11 Company's electric distribution system. The Settlement Agreement assumed that a base 12 amount of \$1,360,000 would be spent on O&M activities associated with the VMP 13 during each fiscal year. The Settlement Agreement also contemplated that the Company 14 would target a budget of \$1,000,000 for REP capital investments for each fiscal year. To 15 the extent the Company spends less than the base O&M budget on VMP activities in a 16 given fiscal year, the difference is credited to customers either through a refund 17 commencing on May 1 or a credit to the following year's VMP O&M budget.

Q. Please describe what types of activities were performed under the REP and VMP in
 2015.

A. The Company budgeted capital funds to install nine single phase recloser schemes, 18
 trip savers in radial applications, and to replace 2.2 miles of bare mainline primary
 conductor with spacer cable. These projects are identified in Appendices 2 and 3 of the

Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty Utilities Docket No. DE 16-____ Testimony of C. Brouillard & J. Carney Page 6 of 10

1 CY 2015 REP/VMP Report. The VM activities consisted of Planned Cycle Trimming, 2 and Interim, Spot, and Trouble Tree Trimming, identified in Appendices 1, 4 and 5 of the 3 CY 2015 REP/VMP Report.

Q. Please explain how the Company decides to allocate funds towards vegetation
management and reliability activities within a given year's budget and the process
the Company uses to determine which REP/VMP projects to undertake in any given
year.

8 A. Each year, the Company develops an Annual Work Plan that is designed to achieve the 9 overriding performance objectives of the business (safety, reliability, efficiency, customer satisfaction, and environmental responsibility). The Company begins with a draft work 10 plan that consists of proposed spending for asset replacement and system capacity and 11 performance initiatives, individual capital projects and work activities required to comply 12 with franchise or tariff requirements such as pole relocations, response to damage/failure, 13 and new business construction. Each potential project specified within the plan includes 14 a business category/justification for the project and estimated costs. The Company then 15 prioritizes the projects based on the relative risk or opportunity associated with each 16 project proposal to facilitate the selection of appropriate projects to be included in the 17 Annual Work Plan. All of the proposed projects then undergo review and are prioritized 18 to achieve an optimized portfolio of projects considering the reliability performance data 19 compared to the reliability improvements targeted by the various programs and the 20 deliverability of the various programs within the fiscal year. The process is designed to 21 ensure the Company arrives at a budget that is the optimal balance in terms of selecting 22

031

Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty Utilities Docket No. DE 16-____ Testimony of C. Brouillard & J. Carney Page 7 of 10

1		the investments necessary to maintain and improve the performance of the system, while
2		also ensuring a cost-effective use of the Company's available resources.
3	Q.	Please explain how capital improvements in the REP/VMP Plan relate to the other
4		capital investments made by the Company to its system.
5	А.	The capital improvements in the REP/VMP Plan are developed within Company's overall
6		capital investment plans. The REP/VMP Plan is a subset of that plan and seeks to
7		develop and implement initiatives to improve the Company's delivery system
8		performance while still meeting investment obligations in the areas of franchise/tariff
9		requirements, capacity, and asset replacement.
10	IV.	CALENDAR YEAR 2015 REP AND VMP IMPLEMENTATION
11	Q.	Please explain how the Company's actual O&M spending for CY 2015 varied from
12		the Company's original budget.
13	А.	As described in the CY 2015 REP/VMP Report, the Company completed all of the
14		vegetation management work contained in its CY 2015 plan. Overall, actual expenses
15		recorded in CY 2015 for VMP O&M activities, including \$273,674 associated with CY
16		2014 VMP activities, amounted to \$1,994,184 or \$421,902 more than the proposed
17		budget of \$1,572,282. The spending variances are explained in Appendix 1 of the
18		REM/VMP Report.

Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty Utilities Docket No. DE 16-___ Testimony of C. Brouillard & J. Carney Page 8 of 10

1Q.Please explain how the Company's actual capital spending for CY 2015 varied from2the Company's original budget.

As shown in Appendix 2 of the CY 2015 REP/VMP Report, the Company provides the 3 A. actual capital investment for 2014 and 2015. The Company's actual total carryover from 4 CY 2014 was \$269,663 (Appendix 2, line 5, column (d)) for capital activities related to 5 the REP, or \$169,663 more than the filed budgeted amount of \$100,000. As shown in 6 7 Appendix 2, line 4, column c, of the CY 2015 REP/VMP Report, the Company's total 8 spending level for CY 2015 was \$1,051,792 for capital activities related to REP, or \$88.208 less than the filed budgeted amount \$1,140,000 for CY 2015 capital projects. 9 Key factors for budget variances are described in Section 2 of the REP/VMP Report for 10 CY 2014. 11

12 Q. Please summarize the reliability results shown in the CY 2015 REP/VMP Report.

Metrics for CY 2015 presented on page 9 of the CY 2015 REP/VMP Report are based on 13 A. Commission Standards for excluding major weather events and on the IEEE Standard 14 1366 method for excluding major event days. The metrics also exclude transmission 15 supply outages, planned or notified outages, and all other applicable exclusions. The 16 metrics include customers interrupted ("CI"), customer minutes interrupted ("CMI"), 17 system average interruption frequency index ("SAIFI"), system average interruption 18 duration index ("SAIDI"), customer average interruption duration index (CAIDI), and 19 customers interrupted per interruption index (CIII). 20

As shown in Section 3 of the CY 2015 REM/VMP Report, the SAIFI performance of
0.58 for CY 2015 continues on an improving, downward trend, with the 2015

Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty Utilities Docket No. DE 16-____ Testimony of C. Brouillard & J. Carney Page 9 of 10

1		performance significantly better than that of 2014. Similar to the SAIFI trend, the 61.05
2		minutes for SAIDI reflects a significant improvement in SAIDI indices over the past few
3		years. For 2015, there were very few non-recurring events greater than 5 minutes in
5		
4		duration that drove our improvement in SAIDI performance. The top 3 events made up
5		24% of our SAIDI performance indices. Mitigation measures, both inside and outside of
6		the REP, were also implemented in 2015 to further improve our SAIDI performance,
7		specifically addressing the drivers to SAIDI performance in 2015. The measures
8		included addressing pockets of poor performance and underperforming feeders.
9		In summary, the Company met its SAIFI and SAIDI targets of 1.56 and 158.10 minutes,
10		respectively, which are based on a 5-year rolling average and are shown on Appendix 7.
11		2015 was the best reliability year since the Company began tracking reliability
12		performance some twenty years ago. However, it is worth noting that in general, electric
13		delivery system reliability performance in the New England region, as well as nationally,
14		was favorable in 2015. Some level of variability is to be expected in the year to year
15		metrics, typically rooted in weather pattern changes. We expect this overall positive
16		performance in SAIFI and SAIDI to continue, albeit at more historical levels, as we
17		experience further positive impact from our reliability initiatives.
18	Q.	Are the REP/VMP expenditures for which the Company is now seeking recovery
19		reasonable?
20	A.	Yes. As described in this filing, the expenditures were reasonable because they were
21		made for programs that are specifically referenced in the Settlement Agreement as
22		necessary to achieve continued improvement in the Company's system reliability. The

Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty Utilities Docket No. DE 16-____ Testimony of C. Brouillard & J. Carney Page 10 of 10

1 work undertaken for vegetation management, single phase recloser and trip-saver	
2 installations, bare conductor replacement, and underperforming area mitigation was	
3 incurred for the explicit purpose of improving system reliability and is consistent with	the
4 intent of the Settlement Agreement. These expenditures are expected to generate real	
5 customer benefits in the form of improved reliability performance. The Company	
6 requests that the Commission approve recovery of these expenditures and permit the	
7 requested rate adjustments to become effective for usage on and after May 1, 2016.	

- 8 V. <u>CONCLUSION</u>
- 9 Q. Does that conclude your testimony?
- 10 A. Yes, it does.
