Dear Ms Howland,

Please add my name to the email list for Docket 16-576, TOU.^{DE}

HerbArcher3@gmail.com

I'm a retired director from BAE SYSTEMS, and in my retirement years have taken a keen interest in distributed residential solar and energy storage as a means for reducing risk on our current grid. I am active in the Hillsborough Area Renewable Energy Initiative (HAREI) – a volunteer group that assists other citizens in “solar raisings,” much like our ancestors came together to assist farmers in barn raisings.

In pursuit of these interests, I attended yesterday's meeting and found the discussion to be of high quality and quite relevant to my interests as an Eversource DG NetMeter customer.

At the conclusion of the meeting, we were invited to submit comments, and it is in the interest of coordinating my comments with those of others that I'd like to add my email address to your list.

Best regards,
