PUBLIC UTILITIES COMMISSION

Docket No. DG 16-⁸²⁷~~769~~

Staff Responses to Joint Petitioners Data Requests

Date Request Received: 1/25/17

Date of Response: 2/2/17

Request No. 6

Witness: Stephen Frink

REQUEST:

Please list any and all steps Staff has undertaken to help Concord Steam customers transition and interconnect to an alternative heat and/or hot water source?

RESPONSE:

Staff objects to the request as it is irrelevant and argumentative. Customer conversions are the responsibility of each customer, not of Staff.

Notwithstanding Staff's objection, although customer conversions are not Staff's responsibility, Staff did attend the informational session for Concord Steam customers that was sponsored by Concord Steam and Liberty and held at the Red River Theater on September 21, 2016. The Director of the Sustainable Energy Division provided information on renewable energy fund grant and rebate programs for commercial utility customers that could assist with the installation of eligible biomass heating, solar thermal and solar electric facilities.
