RE: DG 18-092

Liberty Utilities (EnergyNorth Natural Gas) Corp. d/b/a Liberty Utilities - Keene Division

Petition for a License to Construct and Maintain a Natural Gas Pipeline beneath the Ashuelot River in Keene

Dear Ms. Howland,

Thank you for accepting my comments on DG 18-092.

I have just learned of this proposal to drill beneath the Ashuelot River in Keene, NH. It seems quite far along, yet, those of us who live in the region were not informed. Is there not some system of notification? If I even want to put a fence up, I have to inform each and every neighbor by registered mail plenty in advance! This is so much more - drilling beneath our river - and moving fracked gas! This affects more than a neighbor, this affects an entire community, or actually, a region! How can this be allowed to slide silently by?

I don't know if I have any voice at all, but I choose to challenge this project. Can you offer a timeframe of when this decision will be made and by whom?

I am befuddled by this last gasp of strong arming put forth by the fossil fuel industry when it is clearly time to move forward into the future and invest in renewable sources of power instead of past sources.

This has catastrophe written all over it! Please stop this!

Sincerely,

Andrea Polizos
