Staff Data Requests - Set 11

Date Request Received: 6/11/21  
Request No. Staff 11-6

Date of Response: 6/21/21  
Respondent: Heather Tebbetts

---

**REQUEST:**

Reference Staff 10-1 d and e. Please explain whether all 120 batteries that were installed by December 31, 2020 were operating and available for discharge by the customer and for a called event. If not, please provide how many batteries were actually operating and available for a called event, if necessary, on December 31, 2021. Please provide the number of batteries that were actually discharged on December 31, 2021 and the total associated kWh. If less than 120 batteries were discharged on December 31, 2021, please explain in detail why each battery did not discharge.

**RESPONSE:**

The Company confirms that all 120 batteries that were installed by December 31, 2020, were operating and available for discharge by the customer and for a called event. There were no batteries discharged on December 31, 2020, as that day was not a peak event day.
