

This list may not represent all the companies providing electric, gas, telephone or water service in the state. Many communities have MUNICIPAL water and sewer systems which are included on this list. Additionally, providers of jurisdictional propane gas service, cable television and competitive telephone service are also included on this list. This list will change from time to time so the excavator SHOULD ALWAYS confirm the utilities in their work area.

This list may not represent all the companies providing electric, gas, telephone or water service in the state. Many communities have MUNICIPAL water and sewer systems which are included on this list. Additionally, providers of jurisdictional propane gas service, cable television and competitive telephone service are also included on this list. This list will change from time to time so the excavator SHOULD ALWAYS confirm the utilities in their work area.
