

GREENHOUSE GAS EMISSIONS REDUCTION FUND

Appendix

Calendar Year 2011, Quarter 1

December 8, 2010 - March 31, 2011

Program Title:

Efficiency Training Program (ETP)
NH Department of Resources and Economic Development (DRED) and
Lakes Region Community College (LRCC), Laconia, NH and
Plymouth Area Renewable Energy Initiative (PAREI), Plymouth, NH

Energy Efficiency Training Program

As the lead partner in the Efficiency Training Program, *Lakes Region Community College* is offering building energy efficiency trainings throughout New Hampshire.

LRCC is providing a variety of short-term energy auditor and weatherization installer training programs including:

- BPI Building Analyst and Envelope Professional Training Courses
- BPI Air Sealing and Insulation Installer Training Courses
- Boot Camps and Efficiency Intensive Certificate Programs
- Short-Term Energy Efficiency Trainings
- Energy Efficiency Professional Mentoring Support
- Efficiency Equipment Rental Program

For course dates and descriptions view the [ETP CALENDAR](#)

A key recommendation within the New Hampshire Climate Action Plan goal is to vastly improve the energy efficiency of 30,000 existing NH homes per year. The ETP program is helping to build a network of trained energy professionals to accomplish this recommendation, leading to:

- More energy efficiency jobs and a vibrant local economy
- Lower home energy bills
- Improved occupant comfort and building durability
- Reduced greenhouse gas emissions

The Efficiency Training Program is a partnership with LRCC, the NH Division of Economic Development (DED), the Plymouth Area Renewable Energy Initiative (PAREI) and other allies. The ETP grant is funded by the Greenhouse Gas Emissions Reduction Fund (GHGERF) administered by the NH PUC.

Updated Efficiency Training Program Calendar

March 10, 11, 17, 18, 24, & 25 (6 days + field test): Laconia, NH

[LWKS9000 \(CRN 22188\) BPI Building Analyst](#)

\$650 course tuition + \$250 BPI certification tests (written & field). Registration now open.

March 29 (1 day): Plymouth, NH

Air Sealing and Insulating Installer Training

COURSE IS FULL. Hands-on demonstrations and participation in air sealing and insulation techniques at a house under construction. By [Plymouth Area Renewable Energy Initiative \(PAREI\)](#), co-sponsored by LRCC. This free course is full, but late afternoon "Muddy Boots Tour" is open to the public.

April 6, 7 & 8 (3 days + field test): Laconia, NH

[LWKS9018 \(CRN22191\) BPI Envelope Professional](#)

Intensive Envelope Professional training and BPI certification test prep for energy professionals with BPI Building Analyst certification. Includes optional field test review day April 11.

\$400 course tuition + \$250 BPI certification tests. **Registration now open.**

(Building Analyst + Envelope Professional combo: \$900 for both courses + \$500 BPI certification tests)

April 14, 15, 21 & 22 (4 days): Concord & Bow, NH

[LWKS9019 \(CRN22182\) Pilot Building Envelope Retrofit Mini Boot Camp](#)

Pilot version of hands-on training to gain skills in air sealing and insulation installation techniques. Co-sponsored by the Home Builders and Remodelers Association of NH \$650 course tuition.

May 19, 20 & 26 (3 days): Laconia, NH

TREAT Energy Modeling

Comprehensive training in TREAT residential energy modeling software with actual energy bill truing and sophisticated improvements analysis. Training incorporates TREAT with Better Buildings program. Includes use of LRCC computer with TREAT software, and a 15% discount coupon towards purchase of TREAT software. \$400 tuition.

Easy registration by phone with a credit card - tel. (603) 524- 3207.

Please provide your email address.
