Re: Pittsfield Aqueduct Company, Inc. - NHPUC Annual Report 2019

Dear Ms. Gilpatric:

Pursuant to Rule 609.04 F-16 – Water Annual Report - Attached is an electronic filing of the 2019 Annual Report, 2019 Unaccounted Water Report and the Short Debt Limit Threshold Calculations for Pittsfield Aqueduct Company, Inc. Pursuant to the notice issued by the Commission on March 17, 2020, suspending all Commission rules requiring the filing of paper copies until further notice, pursuant to its rule waiver authority under PUC 201.05, we are electing to only file an electronic form on this Annual Report with the Commission. We are maintaining the original copies on file which can be made available to the Commission upon request. Additionally, I am filing within the extended time frame granted by Jayson LaFlamme to April 7.

Overall, the operating and maintenance expenses decreased 2.97% or \$12,536 from the prior year. The changes to the accounts noted below, unless otherwise noted is the focus of more or less labor in one account in 2019 versus 2018. I have provided explanations for expense variances in non-labor related accounts where items increased/(decreased) 10% or more from calendar year 2018 to calendar year 2019:

Account 6231: Fuel or Power Purchased for Pumping increased 55.76%. There was no significant change in electricity used. The expense for the propane used to heat the plant went up due to an increase in pricing and a colder year in 2019 versus 2018.

Account 6411: Chemicals decreased 23.39% or \$1,643 due to an extra pallet of soda ash being purchased in 2019 versus 2018. No more soda ash was used in the treatment process this was simply an end of the year purchase that happened in 2019 versus 2018.

Account 6422: Operation Labor and Expenses decreased 57.96% or \$3,359 due to the fact that the Company completed certain testing for VOC/SOC's as well as PFOA testing in 2018 that it did not need to complete in 2019.

Account 6522: Maintenance Proc. Equip: Scada & Other increased 50.72% due to the need to add monitoring equipment and reprogram the SCADA system associated with an alarm required for compliance with the Enhanced surface water treatment rule that occurred in 2019 but did not happen in 2018.

Account 6620: Misc. General Expense/Operations decreased 100% or \$148.

Account 6631: Mole: Meter Removal increased 272.71% or \$6,820 due to increased levels of periodic meter testing in 2019 versus 2018.

Account 6651: Small Tools Expense decreased 91.13% or \$807 primarily due to purchasing small tools associated with the hiring of a new employee in the North Country in 2018.

Account 6730: Maintenance of Transmission & Distribution Mains decreased 85.63% or \$24,829 due to a decrease in main repairs in 2019 versus 2018.

Account 6750: Maintenance of Services increased 71.41% or \$15,249 due to an increase in service repairs in 2019 versus 2018. A number of service leaks were discovered during the increased level of meter periodic testing in 2019 versus 2018.

Account 6760: Maintenance of Meters decreased 57.11% or \$1,596.

Account 6770: Maintenance of Hydrants decreased 62.20% or \$7,642.

Account 6780: Monitor Contractors Marking increased 16.93% or \$690 primarily due to increased levels of dig safe responses in 2019 versus 2018.

Account 9020: Meter Reading Expenses increased 31.29% or \$665 primarily due to slower meter reading in the winter of 2019 versus the winter of 2018 due to the need to drive more slowly when reading the meters because of slippery road conditions.

Account 9040: Uncollectible Accounts increased 96.72% or \$2,014. This reflects the fact that more accounts went to collections in 2019 versus 2018 and more accounts reached a point of being written off as uncollectable in 2019 vs. 2018 based on the Company's procedures(which did not change between 2018 and 2019) in dealing with delinquent accounts.

Account 9210: Office Supplies and Other expenses decreased 36.52% or \$2,115 primarily due to the timing of when bulk office supplies were purchased in 2019 versus 2018.

Account 9230: Outside Services Employed increased 254.31% or \$6,440 primarily due to the efforts required by the Company's legal representatives associated with responding the NHPUC investigation into the impact of the change in Corporate Tax Rate on PAC's revenue requirement.

Account 9505: Maintenance of Computer Equipment decreased 100% or \$2,586 primarily due less computer maintenance being complete in 2019 versus 2018.

\*\* For each amount comprising the reported balance and changes in Account 104, Utility Plant Purchased or Sold, state the property purchased or sold, name of vendor or purchaser, and date of transaction.

Note B: Completed Construction Not Classified, Account 106, shall be classified in this schedule according to prescribed accounts, on an estimated basis if necessary, and the entries included in column (c). Also to be included in column (c) are entries for reversals of tentative distributions of prior year reported in column (c). Likewise, if the respondent has a significant amount of plant retirements which have not been classified to primary accounts at the end of the year, a tentative distribution of such retirements, on an estimated basis with appropriate contra entry to the account for accumulated depreciation provision, shall be included in column (d). Include also in column (d) reversals of tentative distributions of prior year of unclassified retirements. Attach an insert page showing the account distributions of these tentative classifications in columns (c) and (d) including the reversals of the prior years tentative account distributions of these amounts. Careful observance of the above instructions and the tests of Accounts 101 and 106 will avoid serious omissions of the reported amount in respondent's plant actually in service at end of year. In the space below. describe briefly each major adjustment or transfer included in columns (e) and (f) above.

**Notes:**

- (1) Fire and meter counts are based on services that have been active for billing purposes at one time and not abandoned. Customer counts do not match the number of meters and fire services since an account could be both metered and have fire services. Additionally, the number of hydrants may only represent a few accounts.

## S-1 REVENUE BY RATES

1. Report below, for each rate schedule in effect during the year, the thousand gallons sold, revenue, average number of customers, average thousand gallons of sales per customer, and average revenue per thousand gallons sold.
2. Provide a subheading and total for each prescribed operating revenue account in the sequence followed in schedule F-47 "Water Operating Revenues". If the sales under any rate schedule are classified in more than one revenue account, list the rate schedule and sales data under each applicable revenue account subheading.
3. Where the same customers are served under more than one rate schedule in the same revenue account classification, the entries in column (d) for the special schedule should denote the duplication in number of reported customers.
4. Number of customers should be reported on the basis of number of meters, plus number of flat rate accounts, except that where separate meter readings are added for billing purposes, one customer shall be counted for each group of meters so added. The average number of customers means the average of the twelve figures at the close of each month.
