Wednesday September 16, 2015
1:30 – 4:30 PM
Public Utilities Commission
21 South Fruit Street, Concord, New Hampshire
Room 103

Docket No. DE 15-137

## **AGENDA**

- 1. Welcome and Introductions
- 2. Review of items agreed upon from previous meeting i.e., EERS Stakeholder Involvement
- 3. Today's Topic EERS Rate Structures
  - Presentation by Rich Sedano of RAP on promotion of energy efficiency via rate design
  - Presentation by utilities on rate structures
- 4. BREAK
- 5. EERS Rate Structures discussion:

When dealing with rate design seek to give accurate cost based price signals in order to:

- o Encourage wise use of energy and reduce the use of energy at peak times
- Avoid creation of cross subsidies that would encourage inefficient use or production of energy
- Consider adoption of optional rate designs for each customer class that encourage efficiency

- Encourage the addition of distributed generation with the right size, location and operating times to have positive impact on the grid and the cost to serve customers
- Revenue adequacy via Implementing decoupling or lost revenue recovery mechanisms
- Promote use of smart meter/smart grid technology/consider time of use, real time pricing
- o Other?
- 6. Preparation for Next Technical Session

Date: September 28, 2015Topic: Regulatory Process

- 7. Summary of areas of agreement following this technical session
- 8. Subsequent Technical Sessions:
  - September 28 Regulatory Process
  - October 12-Placeholder (if necessary)
